

Spencer to Webster Transmission Project

Project Email Sign Up Request

May 2026

Dear Neighbor,

The proposed Spencer to Webster Transmission Project (T20 Line upgrade) is planned to be constructed within an existing transmission corridor that begins at the Meadow Street Substation in Spencer, crosses Route 9, Route I-90 and Carpenter Hill Road in Charlton, Hayden Pond Road in Dudley, and Route 12 in Webster. This line connects the Meadow Street Substation in Spencer, and terminates at the East Webster Substation in Webster, MA. We are in the planning stages of the project, and construction is anticipated to begin early 2030.
